HEALTH LABORATORY SCIENCE

VOLUME 2, 1965

INDEX

	Pages		Pages
January	1–64	July	129–192
April	65–128	October	193–256

Official Publication of the Laboratory Section
American Public Health Association, Inc.
1790 Broadway, New York, N.Y. 10019

INDEX to VOLUME 2, 1965

(Titles and Authors)

A

Page

Almy, R. E., *et al.* Storage of Leukocytes for Chromosome Analysis 71
Angelotti, R., *et al.* Detection of the Staphylococcal Enterotoxins in Food 179
Antigenic Relationships among Human and Animal Strains of Parainfluenza Viruses. E. R. Spurrier and R. Q. Robinson 203
Argonza, W. S., *et al.* A Useful Adaptation of the Fluorescent Treponemal Antibody Test for Syphilis: the Simultaneous Use of the FTA-5 and the FTA-200 (FTA-5-200) 246

B

Bartley, C. H., *et al.* Survival of Fecal Streptococci in Sea Water 142
Bearman, J. E., *et al.* Some Statistical Problems in the Standardization of a Method for Sampling Surfaces for Microbiological Contamination 208
Becker, S. W., *et al.* A Rapid Method for the Isolation of *Coccidioides immitis* from Sputum 35
Bell, E. J., *et al.* The Rocky Mountain Spotted Fever Group of Rickettsias 135
Bench Concept in the Development of Laboratory Suites. J. C. Norman 103
Bodily, H. L., *et al.* A Useful Adaptation of the Fluorescent Treponemal Antibody Test for Syphilis: the Simultaneous Use of the FTA-5 and the FTA-200 (FTA-5-200) 246
Brezenski, F. T., *et al.* The Occurrence of *Salmonella* and *Shigella* in Post-Chlorinated and Non-Chlorinated Sewage Effluents and Receiving Waters 40

C

Cliver, D. O., *et al.* Methods for Detecting Minimal Contamination with Reovirus 81
Cohen, J. O., and Smith, P. B. Serologic Typing of Staphylococci of Epidemiological Significance 197
Consistency of *In Vitro* Microbial Response: A Survey of the Americas, Europe and Japan. H. D. Isenberg 163
Critical Appraisal of the Membrane Filter Technic. G. B. Morgan; P. Gubbins; and V. Morgan 227

D

DeFalco, P., Jr., *et al.* The Occurrence of *Salmonella* and *Shigella* in Post-Chlorinated and Non-Chlorinated Sewage Effluents and Receiving Waters 40
Detection of the Staphylococcal Enterotoxins in Food. H. E. Hall; R. Angelotti; and K. H. Lewis 179
Diagnosis of Rabies by Fluorescent Antibody Method (FRA) Employing Immune Hamster Serum. E. H. Lennette; J. D. Woodie; K. Nakamura; and R. L. Magoffin 24

E

PAGE

Eddy, C. A., *et al.* Susceptibility of Anonymous and Other Mycobacteria to Three Reagents for Destruction of Contaminants during Isolation of *Mycobacterium tuberculosis* from Clinical Specimens 216
Editorial Comments 3, 67, 131, 195
Anniversary—Retrospect and Prospect 4
Automation in the Laboratory 67
Is This Test Necessary 195
Salmonellosis—Renewed Interest in an Old Problem 3
Standards and Methods 131
Epidemiologic Characterization of Group A Streptococci by T-Agglutination and M-Precipitation Tests in the Public Health Laboratory. M. D. Moody; J. Padula; D. Lizana; and C. T. Hall 149
Evaluation of the Immunodiffusion Screening Test for Coccidioidomycosis. B. Warren 242

F

Factors Affecting Removal of $(NH_4)_2SO_4$ from Salt Fractionated Serum Globulins Employing a Spectrophotometric Procedure for Determination of Sulfate. G. A. Hebert and B. Pittman 48
Falcone, V. H., *et al.* Protocols for Testing Reagents Employed in Serologic Tests for Syphilis (completed) 17
Fennell, J., *et al.* A Standardized System for Phage Typing *Pseudomonas aeruginosa* 7

G

Gale, D., and Lockhart, E. A. Studies of Unclassified Mycobacteria. III. The Differential Effect of Organic Solvents on the Growth of Various Mycobacteria and Other Organisms. A Preliminary Report 111
Gibbs, T., and Cliver, D. O. Methods for Detecting Minimal Contamination with Reovirus .. 81
Glantz, P. J., and Krantz, G. E. *Escherichia coli* Serotypes Isolated from Fish and their Environment 54
Gnesh, G. M. Serologic Surveys for Respiratory Virus Antibodies in New York State 89
Goldin, A. S., *et al.* Statistical Technics for Quality Control of Environmental Radioassay .. 93
Gubbins, P., *et al.* A Critical Appraisal of the Membrane Filter Technic 227
Occurrence of Chloramines in Buffered Bacterial Dilution Water 6

H

Halbert, M. M., *et al.* Some Statistical Problems in the Standardization of a Method for Sampling Surfaces for Microbiological Contamination 208
Hall, C. T., *et al.* Epidemiologic Characterization of Group A Streptococci by T-Agglutination and M-Precipitation Tests in the Public Health Laboratory 149
Hall, H. E., *et al.* Detection of the Staphylococcal Enterotoxins in Food 179
Hebert, G. A., and Pittman, B. Factors Affecting Removal of $(NH_4)_2SO_4$ from Salt Fractionated Serum Globulins Employing a Spectrophotometric Procedure for Determination of Sulfate 48
Hurst, V. The Possible Relationship of Some Recently Recognized Strains of Staphylococci 122
Hurst, V., *et al.* A Standardized System for Phage Typing *Pseudomonas aeruginosa* 7

I

Improved Fermentation Medium for *Neisseria gonorrhoeae* and Other *Neisseria.* L. A. White and D. S. Kellogg, Jr. 238
Isenberg, H. D. The Consistency of *In Vitro* Microbial Response: A Survey of the Americas, Europe and Japan 163

J

Jue, R. F., *et al.* A Useful Adaptation of the Fluorescent Treponemal Antibody Test for Syphilis: the Simultaneous Use of the FTA-5 and the FTA-200 (FTA-5-200) 246

K

Keenan, K. M., *et al.* Some Statistical Problems in the Standardization of a Method for Sampling Surfaces for Microbiological Contamination 208
Kelly, S., and Almy, R. E. Storage of Leukocytes for Chromosome Analysis 71
Kellogg, D. S., Jr., *et al.* An Improved Fermentation Medium for *Neisseria gonorrhoeae* and Other *Neisseria* 238
Krantz, G. E., *et al. Escherichia coli* Serotypes Isolated from Fish and Their Environment .. 54

L

PAGE

Lackman, D. B., *et al.* The Rocky Mountain Spotted Fever Group of Rickettsias..... 135
Lennette, E. H., *et al.* The Diagnosis of Rabies by Fluorescent Antibody Method (FRA) Employing Immune Hamster Serum 24
Lewis, K. H., *et al.* Detection of the Staphylococcal Enterotoxins in Food..... 179
Listeriosis of Gray Foxes in Massachusetts. A Case Report. I. M. Reynolds and R. E. Smith 250
Lizana, D., *et al.* Epidemiologic Characterization of Group A Streptococci by T-Agglutination and M-Precipitation Tests in the Public Health Laboratory..... 149
Lockhart, E. A., *et al.* Studies of Unclassified Mycobacteria. III. The Differential Effect of Organic Solvents on the Growth of Various Mycobacteria and Other Organisms. A Preliminary Report 111
Lopez, R. E., and Eddy, C. A. Susceptibility of Anonymous and Other Mycobacteria to Three Reagents for Destruction of Contaminants during Isolation of *Mycobacterium tuberculosis* from Clinical Specimens..... 216

M

Magoffin, R. L., *et al.* The Diagnosis of Rabies by Fluorescent Antibody Method (FRA) Employing Immune Hamster Serum..... 24
Methods for Detecting Minimal Contamination with Reovirus. T. Gibbs and D. O. Cliver.... 81
Michaelsen, G. S., *et al.* Some Statistical Problems in the Standardization of a Method for Sampling Surfaces for Microbiological Contamination..... 208
Moody, M. D., *et al.* Epidemiologic Characterization of Group A Streptococci by T-Agglutination and M-Precipitation Tests in the Public Health Laboratory..... 149
Moore, M. B., Jr., *et al.* Protocols for Testing Reagents Employed in Serologic Tests for Syphilis (completed) 17
Morgan, G. B., and Gubbins, P. Occurrence of Chloramines in Buffered Bacterial Dilution Water 6
Morgan, G. B., *et al.* A Critical Appraisal of the Membrane Filter Technic..... 227
Morgan, V., *et al.* A Critical Appraisal of the Membrane Filter Technic..... 227

N

Nakamura, K., *et al.* The Diagnosis of Rabies by Fluorescent Antibody Method (FRA) Employing Immune Hamster Serum..... 24
Nakamura, M., and Taylor, B. C. Survival of *Shigella* in Biological Materials..... 220
Norman, J. C. The Bench Concept in the Development of Laboratory Suites..... 103

O

Occurrence of Chloramines in Buffered Bacterial Dilution Water. G. B. Morgan and P. Gubbins 6
Occurrence of *Salmonella* and *Shigella* in Post-Chlorinated and Non-Chlorinated Sewage Effluents and Receiving Waters. F. T. Brezenski; R. Russomanno; and P. DeFalco, Jr... 40
Omieczynski, D. T., *et al.* A Rapid Method for the Isolation of *Coccidioides immitis* from Sputum 35
Operation of the CDC National Reference Center for Bacteriophage Typing of Staphylococci 121

P

Padula, J., *et al.* Epidemiologic Characterization of Group A Streptococci by T-Agglutination and M-Precipitation Tests in the Public Health Laboratory..... 149
Pickens, E. G., *et al.* The Rocky Mountain Spotted Fever Group of Rickettsias..... 135
Pittman, B., *et al.* Factors Affecting Removal of $(NH_4)_2SO_4$ from Salt Fractionated Serum Globulins Employing a Spectrophotometric Procedure for Determination of Sulfate.... 48
Possible Relationship of Some Recently Recognized Strains of Staphylococci. V. Hurst.... 122
Protocols for Testing Reagents Employed in Serologic Tests for Syphilis (completed). G. W. Stout; V. H. Falcone; and M. B. Moore, Jr..... 17
Puffer, J., *et al.* A Useful Adaptation of the Fluorescent Treponemal Antibody Test for Syphilis: the Simultaneous Use of the FTA-5 and the FTA-200 (FTA-5-200)..... 246

R

Rapid Method for the Isolation of *Coccidioides immitis* from Sputum. D. T. Omieczynski; F. E. Swatek; and S. W. Becker..... 35
Results of Routine Monitoring of Blood Donors for Hyperglycemia in a Continuing Screening Program for Diabetes Mellitus. A. R. Walter..... 75
Reynolds, I. M., and Smith, R. E. Listeriosis of Gray Foxes in Massachusetts. A Case Report 250
Robinson, R. Q., *et al.* Antigenic Relationships among Human and Animal Strains of Parainfluenza Viruses 203

PAGE

Rocky Mountain Spotted Fever Group of Rickettsias. D. B. Lackman; E. J. Bell; H. G. Stoenner; and E. G. Pickens 135
Rosenstein, M., and Goldin, A. S. Statistical Technics for Quality Control of Environmental Radioassay 93
Russomanno, R., *et al.* The Occurrence of *Salmonella* and *Shigella* in Post-Chlorinated and Non-Chlorinated Sewage Effluents and Receiving Waters 40

S

Serologic Surveys for Respiratory Virus Antibodies in New York State. G. M. Gnesh 89
Serologic Typing of Staphylococci of Epidemiological Significance. J. O. Cohen and P. B. Smith 197
Slanetz, L. W., and Bartley, C. H. Survival of Fecal Streptococci in Sea Water 142
Smith, P. B., *et al.* Serologic Typing of Staphylococci of Epidemiological Significance 197
Smith, R. E., *et al.* Listeriosis of Gray Foxes in Massachusetts. A Case Report 250
Some Statistical Problems in the Standardization of a Method for Sampling Surfaces for Microbial Contamination. K. M. Keenan; M. M. Halbert; J. E. Bearman; and G. S. Michaelsen 208
Spurrier, E. R., and Robinson, R. Q. Antigenic Relationships among Human and Animal Strains of Parainfluenza Viruses 203
Standardized System for Phage Typing *Pseudomonas aeruginosa.* V. L. Sutter; V. Hurst; and J. Fennell 7
Statistical Technics for Quality Control of Environmental Radioassay. M. Rosenstein and A. S. Goldin 93
Stoenner, H. G., *et al.* The Rocky Mountain Spotted Fever Group of Rickettsias 135
Storage of Leukocytes for Chromosome Analysis. S. Kelly and R. E. Almy 71
Stout, G. W., *et al.* Protocols for Testing Reagents Employed in Serologic Tests for Syphilis (completed) 17
Studies of Unclassified Mycobacteria. III. The Differential Effect of Organic Solvents on the Growth of Various Mycobacteria and Other Organisms. A Preliminary Report. D. Gale and E. A. Lockhart 111
Survival of Fecal Streptococci in Sea Water. L. W. Slanetz and C. H. Bartley 142
Survival of *Shigella* in Biological Materials. M. Nakamura and B. C. Taylor 220
Susceptibility of Anonymous and Other Mycobacteria to Three Reagents for Destruction of Contaminants during Isolation of *Mycobacterium tuberculosis* from Clinical Specimens. R. E. Lopez and C. A. Eddy 216
Sutter, V. L., *et al.* A Standardized System for Phage Typing *Pseudomonas aeruginosa* 7
Swatek, F. E., *et al.* A Rapid Method for the Isolation of *Coccidioides immitis* from Sputum 35

T

Taylor, B. C., *et al.* Survival of *Shigella* in Biological Materials 220

U

Useful Adaptation of the Fluorescent Treponemal Antibody Test for Syphilis: the Simultaneous Use of the FTA-5 and the FTA-200 (FTA-5-200). W. S. Argonza; R. F. Jue; J. Puffer; H. L. Bodily; and R. M. Wood 246

W

Walter, A. R. Results of Routine Monitoring of Blood Donors for Hyperglycemia in a Continuing Screening Program for Diabetes Mellitus 75
Warren, B. An Evaluation of the Immunodiffusion Screening Test for Coccidioidomycosis 242
White, L. A., and D. S. Kellogg, Jr. An Improved Medium for *Neisseria gonorrhoeae* and Other *Neisseria* 238
Wood, R. M., *et al.* A Useful Adaptation of the Fluorescent Antibody Test for Syphilis: the Simultaneous Use of the FTA-5 and the FTA-200 (FTA-5-200) 246
Woodie, J. D., *et al.* The Diagnosis of Rabies by Fluorescent Antibody Method (FRA) Employing Immune Hamster Serum 24
